

Formula Sheet

Math 9

<p>Rectangle</p> 	$\text{Area} = l \times w$
<p>Triangle</p> 	$\text{Area} = \frac{1}{2} \times b \times h$
<p>Circle</p> 	$\text{Area} = \pi r^2$
<p>Cylinder</p> 	$\begin{aligned} \text{Area of top} &= \pi r^2 \\ \text{Area of bottom} &= \pi r^2 \\ \text{Area of side} &= 2\pi rh \end{aligned}$

Pythagoras Theorem

$$c^2 = a^2 + b^2$$
